Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 1651

1. Receipt is acknowledged of the election response filed April 10, 2003.

2. Claims 21-24 are now pending in this application.

Claims 1--20 were previously cancelled.

3. Claims 21 and 22 are drawn to the elected invention.

Claims 23 and 24 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No 10.

The restriction and election of species are appropriate for the claimed inventions as evidenced by the following rejection of the claimed subject matter.

The restriction has been made Final.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 1651

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Radwan et al. U.S. 5,688,509.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Radwan et al teaches a method for repelling insects from items that includes textiles, see column 2, lines 61-63 employing repellant compounds that are essential oils as bay oil, see column 3, line 20. The reference teachings render the instant claimed inventions prima facie obvious to one of ordinary skilled in the art.

6. **No claim is allowed.**
